Bc. Gunnar Van Remoortere

Full-stack developer

Slovakia, Bratislava

+32 478 05 05 80

gunnarvanremoortere@gmail.com

Full Stack Developer with close to 4 years of hands-on experience building and refining web applications. I thrive on solving complex problems, optimizing performance, and creating seamless user experiences with clean, scalable code.

Skills & technologies

Frontend

TS, React, Native, Expo, Styled components

Backend

Node, Express, Sequelize, GraphQL, TypeORM, MariaDB, Postgres, Mongodb, Redis, Jest

Devops

Ansible, GCP, GIT

Work experience
Education

Work experience

AOMVSR a.s.
Slovakia - Bratislava
Oct. 2022 - Apr. 2024

Developed **a nationwide firefighter management platform** using **React, Node.js, and Sequelize**. Designed features to streamline firefighter registration and data management, reducing administrative workload by X%. Improved platform scalability and security, ensuring compliance with government IT standards.

Summer Bash
Belgium - Antwerp
Apr. 2024 - NOW
As Freelancer since 2025

At Summer Bash, I continued in the same role, working with similar technologies. Summer Bash is a "startup" developing its own **management dashboard (CMS)**, along with **various mobile applications and websites for both internal and external use**. I was hired to implement **new features** aimed at **digitizing and automating** manual tasks, as well as to **help revamp key processes**—such as the booking flow—**by aligning them with newly designed interfaces**.

Education

Thomas More University
Belgium - Mechelen
2019 - 2022

Studied **software development with a focus on modern web frameworks and digital product design**. In addition to development, I also gained knowledge in **design principles, including color theory, SEO and usability best practices**.

Internship - PixelLab
Belgium - Brugge
2021 - 2022

As part of my Bachelor's program, I completed a **three-month internship** where I learned to work with **Ruby on Rails**. During this time, I was tested on my coding skills and gained hands-on experience in web development using Ruby.
